MHSAS

For the purposes of this survey, "mental health professionals" include psychologists, psychiatrists, clinical social workers, and counselors. Likewise, "mental health concerns" include issues ranging from personal difficulties (e.g., loss of a loved one) to mental illness (e.g., anxiety, depression).

Please mark the circle that best represents your opinion.

For example, if you feel that your seeking help would be extremely useless, you would mark the circle closest to "useless" indicated by circle number '1'. If you are undecided, you would mark the circle in the middle ie circle number '4'. If you feel that your seeking help would be slightly useful, you would mark the circle number '5'.

If I had a mental health concern, seeking help from a mental health professional would be...
